

Acknowledgment of Anesthesia Consent

Your pet will be undergoing sedation/general anesthesia today.

If general anesthesia is to be provided, or if the doctor deems it necessary, in order to recognize any underlying abnormalities your pet will have a pre-surgical blood profile run. This consists of a CBC, which will check blood cells, and a Serum Chemistry, which enables us to check the liver and the kidneys to help ensure your pet's health prior to placing under anesthesia.

I hereby certify that I am the owner of the above-named animal or am responsible for it and have the authority to execute this consent.

I hereby authorize the performance of the recommended Anesthetic Service/Procedure.

I hereby also authorize the use of such anesthetics as you deem advisable and the performance of such surgical or therapeutic procedures as you determine to be indicated.

I agree to indemnify and hold harmless from and against any and all liability arising out of the performance of any of the procedures referred to above.
